MEMORANDUM FOR: Project Director

SUBJECT: Financing for Read-out Equipments

1. You will recall that at the time I reported to [redacted] on the consumers' needs for read-out equipments for Systems One, Three, Four and Five you asked that I prepare for your use with General Cabell a summary document indicating sources of funds. A draft to serve this purpose is attached along with the attachments prepared by [redacted] setting forth the costs of equipments. 50X1 50X1 50X1

2. I submit this paper in this form as a basis for discussion, anticipating that you may wish to ask me to make changes. Another reason is that there are certain factors which may require revision. Thus, if a decision were made to merge [redacted] with AQUATONE and the number of bases of operations were reduced, it would require less read-out equipments. I also understand from [redacted] that rack D may show its head in a different form as a result of certain research now going on. 50X1 50X1

3. Actually, since preparing this I understand that the Air Force may have changed the numbers of some of their racks, though I have not been able to nail this down yet, but changes in that regard do not affect the argument of this paper since they would be subject to Air Force financing.

4. The argument in this paper in this form is acceptable to Ralph Clark, [redacted] 50X1
